Cold Maker Cooling System

Available Dimensions

CODE	DESCRIPTION
CM-062018	PVC Cold Maker System 6 m and water pump with self filter
CM-122018	PVC Cold Maker System 12 m and water pump with self filter
CM-182018	PVC Cold Maker System 18 m and water pump with self filter
CM-242018	PVC Cold Maker System 24 m and water pump with self filter
CM-302018	PVC Cold Maker System 30 m and water pump with self filter
CM-362018	PVC Cold Maker System 36 m and water pump with self filter

- ▶ Easy installation
- ▶ Includes an internal water tank, no need for an additional one
- ▶ The Floating system enables automatic refill when the water level falls
- ▶ Adjustable length and height due to its modular structure
- ▶ The pads can be easily installed and uninstalled due to the special lock system
- ▶ Includes a drain valve
- ▶ PVC materials contain UV
- ▶ More durable than alternative cooling systems as it completely made of plastic
- ▶ Completely rustproof
